

# *Mt. Olivet Infants*

Words by volunteer historian Dennis Derr at the dedication of our Infant Memorial Garden on September 29, 2024:

*Mt Olivet holds a wealth of the history of New Cumberland. The ground we are standing on was the farmland of the Kauffman's, Garver's and Good's. The Cemetery grew from a small plot of ground used by the locals for burial in the 18<sup>th</sup> Century, to the 20+ beautiful acres we see today.*

*Every Soul interred here has a story to tell. Some Blessed with more than a Century of life. Sadly, some lives were measured in minutes or days. And even more sadly, many of the memories of these Souls have been lost to time.*

*Our records show that from around 1895 to 1955, there were more than 100 children and infants buried in an area meant for 18 burials. These records, although long existing, more recently came to the attention of current management as results of close study of our records and realizing the section we call "128" was likely a "Pauper's" area.*

*There are a few adults identified in section 128, But most are unnamed children.*

*Today we bring their memories to mind and honor them with this beautiful Memorial Garden.*
